RE: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

I am writing to you as a State Representative who proudly serves the people of Florida to encourage you to join me in my support of Comcast and NBC Universal's new venture. Comcast has done more for Floridians than just provide cable – the company has spurred economic growth while promoting positive corporate citizenship and giving back to Floridians across the state.

Along with most of the country, Florida's economy has been suffering recently. Many in our state have lost their jobs and are struggling to find new opportunities. Given this backdrop, Comcast's investment in creating and improving a national broadband framework has provided a great opportunity for many small business owners. With reliable access to this emerging technology, local entrepreneurs can compete for business on a national (and even international) level while keeping costs low and quality high.

Comcast exemplifies good corporate citizenship, reaching out on both a local and a national level. I was particularly happy to learn about Comcast's work with Big Brothers Big Sisters, the United Way and Partnership for a Drug-Free America. And I know that

Committees:

Criminal & Civil Justice Policy Council, Chair
Criminal & Civil Justice Appropriations Committee

Finance and Tax Council
Policy Council

the company also collaborates with many small, local non-profit organizations to address the needs of communities across the country – including right here in Florida.

Comcast has had a positive impact on the lives of many Floridians. I trust that the company's dedication to philanthropy and responsibility will continue for years to come and will be only be strengthened by their impending partnership with NBC Universal.

Sincerely,

A handwritten signature in dark ink, appearing to read "W. Snyder", with a stylized, flowing script.

William D. Snyder
State Representative, District 82
